

Guam OMH Obesity Commercials

October 16, 2012

The Guam Office of Minority Health (GOMH) is pleased to announce the availability of on-line viewing of the three Obesity Commercials it produced over the past year. Obesity is a very serious problem on Guam that affects about one in three adults on Guam. Obesity among children is increasing. Obesity can cause cancer, diabetes and heart disease. The GOMH Obesity Commercials feature a series of culturally competent and multi-lingual messages designed for television and theatre viewing. The commercials feature local talent volunteers and were produced in partnership with Guam Public Broadcasting Service (PBS) and KUAM Broadcasting Studios. To view these commercials, please follow this link to the YouTube Guam OMH Channel:
